TOTAL CERVICAL DISC SOLUTION

The physics of bodies in motion is a mystery as old as the observations of Galileo, the laws of Newton, and the theories of Einstein.

Kinematics, the science of motion in human bodies, is only now beginning to enter a golden age of invention and technology advancements that leaves behind a world of orthopedic procedures that weld and fuse the spine to relieve pain. We have entered the area of motion and motion preservation.

Stone & Black is aiming to be leader in this area and is pushing forward into this future of human motion with its GLC and DLC platform technology.

KRONOS GLC (Gold Like Coating)

Code	Description	Size
GLC 1205	Total Cervical Discprothesis	12 X 14 X 5 mm
GLC 1206	Total Cervical Discprothesis	12 X 14 X 6 mm
GLC 1207	Total Cervical Discprothesis	12 X 14 X 7 mm
GLC 1405	Total Cervical Discprothesis	14 X 14 X 5 mm
GLC 1406	Total Cervical Discprothesis	14 X 14 X 6 mm
GLC 1407	Total Cervical Discprothesis	14 X 14 X 7 mm

KRONOS GLC

KRONOS DLC (Gold Like Coating)

Code	Description	Size
DLC 1205	Total Cervical Discprothesis	12 X 14 X 5 mm
DLC 1206	Total Cervical Discprothesis	12 X 14 X 6 mm
DLC 1207	Total Cervical Discprothesis	12 X 14 X 7 mm
DLC 1405	Total Cervical Discprothesis	14 X 14 X 5 mm
DLC 1406	Total Cervical Discprothesis	14 X 14 X 6 mm
DLC 1407	Total Cervical Discprothesis	14 X 14 X 7 mm

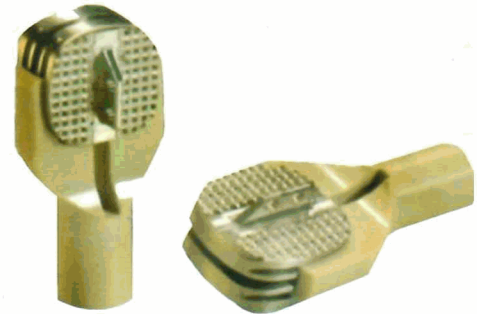

KRONOS DLC

*For more information and product types please refer to our web site or contact with our customer service.

- Premounted on prehensor.
- Easy to place.

Instruments:

Corresponding wedge, trial slotcutter, prehensor and impactor.
